SAGA.M31 – GALAXY –

VERSION 1.1 NOW WS-I COMPLIANT

Alzey, 24-May-2005

SAGA D.C. GmbH, a German Software vendor, today announced the availability of Version 1.1 of their Data-Integration Server SAGA.M31 – Galaxy –. The latest version can be downloaded from the product website under <http://galaxy.sagadc.com>.

This new version has passed the WS-I Basic Profile 1.1 and Basic Profile 1.0 compliance tests only with minor modifications.

The WS-I (Web Services Interoperability Organization – <http://www.ws-i.org>) is focussed on the interoperability of Web Services and has created a set of profiles that a Web Service should comply to. This should provide a secure interaction between the different vendors and users of Web Services.

Passing the compliance tests of WS-I Basic Profile 1.1 and Basic Profile 1.0 **SAGA.M31 – Galaxy –** shows that users can trust the way the server generate and handles Web Services.

“To pass the tests, only a minor modification in the sequence we generated fields in an array were necessary” said Saqib Rasul, one of the developer of this product.

Together with this new Version a new Eclipse-Plugin was also released. This plugin now allow not only to be used in Java projects but also to implement the container structure of **SAGA.M31 – Galaxy –** into other types of application. Within this package, an PHP API is provided to simplify the integration of 3270, LDAP and SQL Data into an PHP Web.

“This shows our commitment to the users of **SAGA.M31 – Galaxy –** to use our Service with a large variety of applications” Christian Spaeth, another developer of the product said.

All current users of **SAGA.M31 – Galaxy –** can download the latest version from our product website under <http://galaxy.sagadc.com> .

Inquiries and more information can be requested by email under <mailto:galaxy@sagadc.com>.

Also there is a product homepage available under <http://galaxy.sagadc.com> and our Forum Website <http://www.sagadc.org> where all questions and discussions on the product will be answered directly.

PRESSRELEASE
